Laporan Tugas Akhir, 30 Maret 2021

Amanda Yurike Apresia

Asuhan Keperawatan Gangguan Kebutuhan Rasa Aman Nyaman Pada Tn. A Dengan Kasus Luka Bakar Di Instalasi Gawat Darurat RSUD Jend Ahmad Yani Metro Tanggal 30 Maret 2021.

Tuliskan berapa halaman romawi, halaman angka, gambar, tabel (lihat pedoman penulisan LTA)

RINGKASAN

Menurut data dari WHO Global Burden Disease, pada tahun 2017 diperkirakan 180.000 orang meninggal akibat luka bakar dan 30% pasien berusia kurang dari 20 tahun. Umumnya korban meninggal berasal dari negara berkembang dan 80% terjadi di rumah. Sedangkan pada tahun 2018 diperkirakan 265.000 orang meninggal setiap tahunnya karena luka bakar. Menurut RISKESDAS (2013) prevalensi cedera di Indonesia sebanyak 7,5% salah satunya karena luka bakar yaitu sebanyak 2,2%.

Tujuan umum dari penulisan laporan tugas akhir adalah memberikan gambaran tentang Asuhan Keperawatan pada Tn. A dengan Gangguan Rasa Aman Nyaman Nyeri akut pada kasus Combustio dan berdasarkan Standar Diagnosa Keperawatan Indonesia (SDKI), Standar Intervensi Keperawatan Indonesia (SIKI), Standar Luaran Keperawatan Indonesia (SLKI).

Hasil pengkajian pada kasus ini didapatkan data yaitu Tn.A mengalami luka yang disebabkan tersiram minyak panas yang mengenai kedua tangan dan badan bagian samping dengan luas luka sebesar 27% dengan kedalaman ketebalan partial dermal dalam derajat II. Diagnosa keperawatan yang muncul pada pasien yaitu : Nyeri akut, Gangguan integritas kulit, Risiko hipovolemia. SLKI : Tingkat nyeri (L.08066), Integritas kulit dan jaringan, Status cairan. SIKI : Manajemen nyeri (I.08238), Perawatan integritas kulit, Manajemen hipovolemia. Evaluasi keperawatan nyeri akut teratasi sebagian.

Simpulan dari laporan ini adalah tidak semua asuhan keperawatan pada teori sesuai dengan kondisi klien Tn.A pada kenyataannya. Saran dari penulis diharapkan laporan asuhan keperawatan ini dapat menjadi bahan pertimbangan untuk melakukan asuhan keperawatan pada kasus luka bakar di ruang Instalasi Gawat Darurat RSUD Jendral Ahmad Yani Metro.

Kata kunci : Asuhan keperawatan, Luka bakar, Gangguan rasa aman nyaman

KOTABUMI NURSING STUDY
Final Project Report, March 30, 2021

Amanda Yurike Apresia

Nursing Care Disturbance Needs Sense of Security Comfort In Mr. A With Burns Cases at the Emergency Installation of General Hospital Ahmad Yani Metro on March 30, 2021.

SUMMARY

According to data from the WHO Global Burden Disease, in 2017 an estimated 180,000 people died from burns and 30% of patients were less than 20 years old. Generally, the death toll comes from developing countries and 80% occurs at home. Meanwhile, in 2018 an estimated 265,000 people died each year due to burns. According to RISKESDAS (2013) the prevalence of injury in Indonesia is 7.5%, one of which is due to burns, which is 2.2%.

The general purpose of writing a final project report is to provide an overview of Nursing Care for Mr. A with impaired sense of security and comfort Acute pain in Combustio cases and based on the Indonesian Nursing Diagnosis Standards (IDHS), Indonesian Nursing Intervention Standards (SIKI), Indonesian Nursing Outcomes Standards (SLKI).

The results of the study in this case obtained data, namely Mr. A had an injury caused by scalding hot oil on both hands and side of the body with a wound area of 27% with a depth of partial dermal thickness in degree II. Nursing diagnoses that appear in patients are: Acute pain, Impaired skin integrity, Risk of hypovolemia. SLKI : Pain level (L.08066), Skin and tissue integrity, Fluid status. SIKI : Pain management (I.08238), Skin integrity care, Management of hypovolemia. Nursing evaluation of acute pain partially resolved.

The conclusion of this report is that not all nursing care in theory is in accordance with the client's condition, Mr. A in fact. Suggestions from the authors are expected that this nursing care report can be taken into consideration for carrying out nursing care in cases of burns in the Emergency Room of General Ahmad Yani Metro Hospital.

Key words: Nursing care, Burns, Disturbance in feeling safe and comfortable
