Gambaran Swamedikasi Nyeri Pada Masyarakat Desa Candimas Kecamatan Natar Lampung Selatan Tahun 2022

xvii + 95 halaman, 9 gambar, 20 tabel, dan 11 lampiran

ABSTRAK

Swamedikasi atau pengobatan sendiri merupakan sebuah upaya seseorang untuk mengobati diri sendiri dengan mengenali gejala atau penyakit yang dirasakan dan memilih obat sendiri. Swamedikasi bukan hanya sekedar cara menggunakan obat, melainkan mendapatkan obat tanpa resep, membeli obat berdasarkan resep lama yang pernah diterima ketika berobat ke dokter atau memanfaatkan sisa obat-obatan yang tersisa di rumah.

Tujuan penelitian ini adalah untuk mengetahui gambaran Swamedikasi Nyeri pada Masyarakat Desa Candimas Kecamatan Natar Lampung Selatan. Penelitian ini menggunakan metode deskriptif yang bertujuan untuk memuat gambaran tentang swamedikasi nyeri. Hasil data disajikan dalam bentuk distribusi frekuensi dan persentase. Hasil penelitian menunjukkan bahwa persentase karakteristik 100 responden berjenis kelamin perempuan (73,0%), usia 26-45 tahun (48,0%), bekerja (53,0%), perilaku responden ketika sakit yaitu mengobati sendiri (52,0%), penyakit yang diobati sendiri yaitu sakit kepala (50,0%), obat yang digunakan ketika sakit yaitu parasetamol (37,5%), cara mengkonsumsi obat 3 x sehari (47,0%), swamedikasi rasa nyeri (99,0%), alasan melakukan swamedikasi yaitu praktis dalam segi waktu (72,6%), obat pereda nyeri yang dikonsumsi yaitu panadol (40,6%), aturan pakai obat pereda nyeri 3 x sehari (50,5%), golongan obat bebas (67,1%), konsumsi obat sudah sesuai anjuran pakai pada kemasan (88,8%), sarana mendapatkan obat untuk swamedikasi nyeri yaitu apotek (65,1%), sumber informasi obat pereda nyeri yaitu media elektronik (43,5%), jenis sumber informasi obat yaitu internet (36,3%), tindak lanjut pengobatan tertinggi yaitu ke puskesmas (40,4%).
