<p>Dear. Prof Dr Mirko Zhivko Spiroski</p> <p>(Editor in Chief Open Access Macedonia Journal of Medical Sciences)</p> <p>Subject: Manuscript submission</p> <p>We hereby send a manuscript titled "<b>Effectiveness of Betel Leaf (<i>Piper betle</i> L.) Extract as A Bio-pesticide for Houseflies (<i>Musca domestica</i> L.)</b>" for consideration and publication in the Open Access Macedonian Journal of Medical Sciences. This study aims to provide empirical evidence of the use of L. betel leaf extract as a biopesticide.</p> <p>We have proven that Piper betle can be used as an alternative biopesticide against Musca domestica. The influencing variables were <i>Piper betle</i> L. leaf extract concentration (P-value &lt;0,000), contact time (P-value &lt;0,000), and interaction of concentration and contact time (P-value = 0.0007). The concentration shows a very strong relationship with the mortality of <i>Musca domestica</i> and the three variables show that the Power of Test is close to 100%.</p> <p>I also claim not to have any conflicts of interest. This manuscript has never been published, accepted for publication, submitted, or is in the process of being reviewed in any journal. I hope this manuscript meets the standards in the Open Access Macedonian Journal of Medical Sciences, so that it can be published later.</p> <p>Sincerely,</p>	<p>prayudhy</p> <p>2021-07-21</p> <p>12:34 PM</p>
